### Psychic

A person who is psychic has the ability to perceive things hidden from the senses through means of extra-sensory perception. Some people believe that psychic powers can be heightened by the study and practice of various disciplines such as meditation.

The word "psychic" is a generic term that describes a person who can "sense" on a purely material level but is not able to "tune in" to the spirit world, which is what a medium does. All mediums are psychic but not all psychics are mediums. A psychic will use tools that can be used in conjunction with their natural ability, for example, tarot cards, runes, palm-reading etc to calculate the future events and give probable forecasts.

### Medium

Mediums have the ability to communicate with 'spirits' - these are people who were once living and now live 'in spirit'. Mediums can bring messages from loved ones and offer 'evidence of survival' after death. They cannot summon specific people up for you, but will be able to give information and guidance on who comes to them in the reading.

Mediums may also give messages and information from either their or your 'Spirit Guides'. A medium can help contact a deceased person. It doesn't matter if you simply have a need for closure, seek reconciliation, or need important information for your life to go on. With the help of a medium you also can find out which worries are troubling someone if you are currently having problems reaching him or her at an emotional level.

### Clairvoyant

The word 'clairvoyant' means 'spirit-seeing' ('clair' = spirit, 'voyant' = to see). A clairvoyant reader is able to receive information about the caller by psychic ability, without cards or any other tool. The reader may see 'guides' or people from spirit and will mostly just sense or know information about you and your life.

Clairvoyant readings are excellent for general readings as well as those on specific areas or questions. Clairvoyance has a thousand-year-old tradition in the history of mankind. There were people in nearly every culture who were particularly sensitive and receptive in a spiritual sense. It was said that these people possessed special interpretative skills. One famous example is the oracle at Delphi, where the priestess Pythia was able to relay prophecies about the future while in a state of trance.

### Reiki

Reiki is a Japanese technique for stress reduction and relaxation that also promotes healing. It is administered by "laying on hands" and is based on the idea that an unseen "life force energy" flows through us and is what causes us to be alive. If one's "life force energy" is low, then we are more likely to get sick or feel stress, and if it is high, we are more capable of being happy and healthy. The word Reiki is made of two Japanese words - Rei which means "God's Wisdom or the Higher Power" and Ki which is "life force energy". So Reiki is actually "spiritually guided life force energy." A treatment feels like a wonderful glowing radiance that flows through and around you. Reiki treats the whole person including body, emotions, mind and spirit creating many beneficial effects that include relaxation and feelings of peace, security and wellbeing. Many have reported miraculous results.

Reiki is a simple, natural and safe method of spiritual healing and self-improvement that everyone can use. It has been effective in helping virtually every known illness and malady and always creates a beneficial effect. It also works in technique to learn, the ability to use Reiki is not taught in the usual sense,
